Feedback form 1

Goals: I want to make this class better for you. Tell me how.

How do you like your group? Do you think you would work better if you changed groups?

How do you feel about the (review?) mini lectures that I sometimes give? Are they helpful? How can they be better? Should they be more or less often? Shorter or longer?

Do you find Tuesdays or Thursdays more enjoyable? Which do you find more productive?

How long do you generally spend on the preparation assignments? Are they helpful in guiding your thoughts? Are they too long? Would you like more?

Any other likes/dislikes about the way I am running the merit part of our discussions? If so, write these on the back of the page and indicate here that you've done so.
